# Creating the Institution Details Custom Table

## 1. Overview

In this task we create a custom table **Institution Details** (**u_institution_details**) in ServiceNow, add the required columns (fields), and then create sample records with different Branch values (ECE, EEE, CSE).

## 2. Create the Custom Table

1. In the **Application Navigator**, search for **System Definition** → **Tables**.
2. Click **New**.
3. Label: enter **Institution Details**.
4. Name: **u_institution_details** (auto-filled from the label).
5. Extends table: leave it **empty / false** (do not extend any table).
6. Click **Save** or **Submit** to create the table.

## 3. Table Details

| Property | Value |
|---|---|
| Label | Institution Details |
| Name | u_institution_details |
| Extends table | false (none) |

## 4. Add Columns (Fields)

Open the table record again, go to the **Columns** tab, and use **Insert a new row** (double-click on the row that says 'Insert a new row...') to add each field below.

| Column Label | Type | Notes |
|---|---|---|
| Student Roll Number | Auto Number | Generates numbers automatically (set a prefix like STU and starting number) |
| Student Name | Reference | Reference table: **User** [sys_user] |
| Faculty Name | Reference | Reference table: **User** [sys_user] |
| Branch | Choice | Choices: **ECE, EEE, CSE** |
| Email | String | Max length 100 (default 40 also fine) |
| Phone Number | String | Stores the phone number as text |
| Description | Multi Line Text (Multi String) | For long text |

## Adding the Branch Choices

After creating the **Branch** column with type **Choice**, open the column record and, in the **Choices** related list, click **New** to add three choices: **ECE**, **EEE** and **CSE** (Label and Value can be the same). Click **Update** on the column.

## 5. Save the Table

After all seven columns are added, click **Update** / **Save** on the table form.

## 6. Create Records

1. On the table form, click **Show List** in the **Related Links** section.
2. The **Institution Details** list opens. Click **New**.
3. Fill Student Name, Faculty Name, Branch, Email, Phone Number and Description.
4. Click **Submit**. The Student Roll Number is generated automatically.
5. Repeat to create multiple records with different Branch values.

Sample records:

| Student Name | Faculty Name | Branch | Email | Phone |
|---|---|---|---|---|
| Student 1 | Faculty 1 | ECE | student1@example.com | 9876543210 |
| Student 2 | Faculty 2 | EEE | student2@example.com | 9876543211 |
| Student 3 | Faculty 1 | CSE | student3@example.com | 9876543212 |
| Student 4 | Faculty 2 | ECE | student4@example.com | 9876543213 |
| Student 5 | Faculty 1 | EEE | student5@example.com | 9876543214 |
| Student 6 | Faculty 2 | CSE | student6@example.com | 9876543215 |

## 7. Verification

- Open the Institution Details list and confirm records exist for all three branches: ECE, EEE, CSE.
- Confirm that Student Roll Number is auto-generated for every record.
