Creating Roles (bb1 - bb4) and Assigning to EEE User

1. Overview

In this task, we create four roles named **bb1, bb2, bb3** and **bb4** under User Administration, and then assign all of them to the **EEE User**. A role is a set of permissions; once a role is assigned to a user, the user gets the access defined by that role.

2. Creating a Role (Example: bb1)

Step	Action	Details
1	Navigate to the Roles page	From the main menu, go to **User Administration** → **Roles**.
2	Click New	On the Roles list page, click the **New** button to open a blank role form.
3	Enter the Name	In the **Name** field, type the role name: **bb1**.
4	Enter the Description	In the **Description** field, write a brief purpose, e.g. *"Role bb1 for testing access"*.
5	Click Submit	Click **Submit** to save. Role bb1 now appears in the Roles list.

3. Create the Other Roles

Repeat the **same procedure** (Steps 1-5 above) for the remaining roles:

Role Name	Description (example)
bb1	Role bb1 for testing access
bb2	Role bb2 for testing access
bb3	Role bb3 for testing access
bb4	Role bb4 for testing access

4. Assign All Roles to the EEE User

1. Go to **User Administration** → **Users**.
2. Search for and open the **EEE User** record.
3. Open the **Roles** related list / tab on the user record and click **Edit** (or **Add**).
4. Select **bb1, bb2, bb3** and **bb4**.
5. Click **Save / Submit** to apply the assignments.

5. Verification

- Open **User Administration** → **Roles** and confirm bb1, bb2, bb3, bb4 are listed.
- Open the EEE User record and confirm all four roles appear under its assigned roles.
